What do women really want in bed? Oral, lots of oral. And trust me, no matter how good you think you are at it, your oral sex skills always have room for improvement.

Oral sex can be one of the best ways to pleasure a woman, but it seems to be a challenging move for most guys. In my opinion, the problem is many men have never learned how to eat pussy “the right way.”

What is the right way to eat pussy? Keep reading, I’m going to tell you everything you need to know

Master the Art of Going Down
I know I’m not the only woman who thinks this way, but eating pussy is something every guy should learn how to do. It’s an art that separates a good lover from Mr. Average.

As a single, hetero woman, I have been with men who ranged from the one who had no idea what he doing downtown to another who was so skilled that I can almost cum just thinking about it. He was an exception.

Here’s the thing: Most guys see oral sex as a brief pit stop en route to the main destination. Because of that, they don’t put much energy into honing their skills. There are quite a few out there who can’t seem to locate the clitoris, let alone bring a woman to orgasm by eating her pussy.

This is all good news for you, my friend.

If you put even a little bit of effort into sorting out your approach and technique, you’ll set yourself miles ahead of the pack. When you’re through, she’ll be blissed out, panting and doe-eyed, looking at you like you’re an absolute rock star.

So what’s the secret? It’s not complicated. With just a few simple techniques, you can easily become an expert cunnilinguist.

**Pay attention**

The simple ability to pay attention takes average oral sex-givers into the big leagues.

Listen to her moans and feel her movements. If she’s making positive sounds and pushing her hips into your face, you’re on the right track. If she’s pulling away or lying there like a starfish, do not keep doing whatever it is you’re doing.
You can tease her a little bit, but if she’s getting into it, don’t change or stop. That’s listening to her body.

**Use the clitoral hood**

The clitoral hood is the flap that protects the external clitoris, much in the same way foreskin does for an uncircumsized penis. For many women, direct clitoral stimulation can be too intense, especially at the onset of oral sex.

Instead of pulling it up to access the clitoris, stimulate her clitoris over the hood. This will provide just the right amount of pleasure without causing discomfort.

Once she’s sufficiently aroused, you can try touching the clit directly. Pull back the hood by placing your hand on her bush and gently pushing back toward her belly button.

Let her feel your warm breath on her clitoris before touching her with your tongue. Just pause and stop everything, with your mouth so close… Remember, it’s all about teasing.
When you do use your tongue, a good place to start is clockwise or counterclockwise circles around the glans clitoris using mostly the smooth underside of your tongue. Most women prefer either up-and-down or circular motions. Don’t flick it.

Ask her what she wants

If you are confused and unsure of what she wants, ask her. This is especially helpful with a new partner. A thing that worked with one woman may not work with another. The vulva is as unique as a snowflake and no two are the same.

Does she like you to insert a finger or two while you’re giving her oral sex? Does she enjoy having her labia licked? Is her vaginal opening particularly sensitive? You will not know unless you ask her.

Being able to communicate with your partner is extremely hot. She’ll appreciate that you care enough to find out what brings her pleasure.
The number one rule of great oral sex is consistency. What one person likes, another may not. Every single body is different and likes different things.

That being said, when you find something that’s working, stick to it.

If her body is responding positively, keep going. If she isn’t feeling it, try something else.

Is she telling you to keep going? If she is, keep going. Do not stop making that movement with your tongue.

The clitoris is not the only area you can explore, but it is the center of the action.
Try G-spot stimulation

If she enjoys internal stimulation during oral sex, simultaneously stimulate her clitoris and G-spot. The G-spot is less of a “spot” and more of an “area.” It’s the area that surrounds the urethral sponge. When stimulated, you’re accessing the root of the clitoris, the back end that you can’t see externally.

To find the G-spot, insert two fingers into the vagina and hook up towards the belly button, behind the pubic bone. Make a “come here” motion with your fingers or move your fingers in a circular motion.

Don’t forget to pay attention. G-spot stimulation isn’t every woman’s cup of tea. Experimenting is great, but be willing to learn and hone your skills with each new partner.
Almost as important as consistency: Do not give half-baked oral sex. Once you start, do not stop until she has an orgasm. If she’ll let you, hold her hips in place and take her through to a second orgasm.

Encourage her to relax and take her time. So many women are afraid of “taking too long,” making it nearly impossible to come. Tell her how sexy she is and how much you enjoy going down on her. The key is to put her at ease so she can get off. Keep your tongue moving to build up the sexual tension and momentum. Establish a rhythm and tell her gently to take a few deep breaths.

It’s a Tantric Sex technique that works wonders at any point by relaxing her and facilitating her orgasm. Use your tongue at this point in one, long up and down motion. Repeat. Signs of escalating excitement including deeper breathing, moaning, grunting, or threatening to commit suicide if you stop. Any of these tips will set you apart from the average guy, but do you want to go all the way and really drive your woman wild?

These legendary encyclopedias BELOW contain numerous techniques for going down, explained in detail. Check them out and you’ll find a variety of sexy topics including how to get her into the right mindset, all of her secret erogenous zones, foreplay, positions, aftercare, and more.
Is female sexual arousal different from male sexual arousal? Do these differences matter? Why do women say no to sexual intimacy? What factors increase or decrease female sexual arousal?

In this fun-to-read, empowering book about the many angles of female arousal and pleasure, the author, delves into the secrets of a woman’s anatomy and satisfaction, and offers entertaining, but knowledgeable, answers to questions every man wonders about. This refreshing book explains what to do, where and how to do it.

NB: Some of the techniques within this book are sexually and emotionally powerful. Although these techniques and activities can have dramatically positive effects on the emotional well-being of individuals involved, people in short term relationships should generally apply these techniques with caution.

So few men are skilled at eating pussy, that even just reading a few pages of this book will literally put you in the top 1% of cunnilingus masters. Eating a woman’s pussy is one of the greatest sexual acts you can perform. It is at the same time intimate and incredibly sexual. You are literally making out with her pussy. At the same time that your head is buried between her thighs, you can feel the subtle convulsions of her body, her breath deepen and shorten and you can feel the arching of her back as she actually works with you to heighten her own arousal. If you do it right, the experience is intense, unforgettable and at times – explosive. However, eating a woman’s pussy is not something that they ever taught you in school. It is, although, a skill that every man should have. This teaches you how to do it right. Now let’s gets down to eating pussy and chowing box.
This manual is a plain-and-simple, instructional guide on how to give women orgasms. This Book is something that you can refer to time and time again. The information is intended to help women achieve orgasms and have a more fulfilling sexual relationship. It contains details of female orgasms, along with the overall “system” or “strategy” you’ll employ. Also included are techniques to illustrate what needs to be done, and when.

It can be looked at as the “toolbox” of techniques. You’ll find a variety of different sexual techniques you can use to “plug-and-play” into the overall system of making a woman achieve an orgasm. In this book are the keys needed to open the doors for a woman’s sexual fulfillment ready to be given to as many lovers as those who desire to possess them. OK, enough talk... now open the book and let’s get down to business!

Now my friends what you have before your eyes is a master class in the art of mastering your woman. Unfortunately, many men do not learn the true principles of women sexuality at the outset and so, even with the best of intentions, their form is without substance. That’s a shame, because mastering her is the most effective way to bring a woman to orgasm. It can also be one of the most pleasurable acts—for both of you.

This book will make you be able to convert a woman’s movement and internal force into stimulation and stability. These techniques are helpful for staying on course to her orgasm. This book revolutionizes the way people learn about sex. Millions of men want to be sure that when their partner says, “Yes, I came,” she’s saying it with the flush of a real orgasm on her face, and the weak knees of a woman who’s just experienced something that she’d only suspected could exist.
This program is designed to help men overcome sexual dysfunctions and regain their sexual confidence. It offers strategies and techniques to re-train your mind and body in order to have longer-lasting sex, while increasing your partner’s pleasure.

Everything is explained here in clear, concise and easy-to-understand instructions. The insights, tools and techniques in this program have been rigorously tried, tested and proven effective by thousands of other men who are now enjoying lovemaking that lasts so much longer than before.

This will also give you some instant “firepower” that you can use tonight! Reveled are the tried-and-tested tactics you can use right away to put up a respectable performance in bed, and send her into a sexual frenzy!

For most women, unforgettable sex isn’t only about penetration. There are a variety of activities that just go beyond pleasure vaginal stimulation and fingering (vagina massage).

Great lovers are made, not born! This is a point that I bring up time and time again. So many people expect sex to be effortless, but it rarely works that way in the real world. Just like any other skill, being good in bed takes time, practice, and education.

Now in this educative guide what is your worst case scenario for rubbing pussy for some time? Even with no healing or revelations or orgasms that’s bound to be a good time for both of you.

Ready to go beyond just pleasure?
Do you know the right way to place your first lick? The first lick sets the tone for the entire session due to a psychological principle called the “Primacy effect.”

So what will you learn in this Book?

— The Cunnilingus Principles for Powerful Orgasms

— Easy Ways to Supercharge Her Orgasms

— Know Exactly How She Wants to Be Licked WITHOUT Asking Her!

— Tongue Tricks to Blow Her Mind

— Most Comfortable Oral Sex Positions for Powerful Orgasms

— Weird Ways to Use Food to Improve Your Oral Sex Skills

— How to Give An Unforgettable First Lick That Makes Her Swoon in Delight

If you are a guy and sexually inexperienced, don’t face your initial sexual encounters with uneasiness. A little bit of knowledge will help these encounters to be even more joyous. This guide spells out the basics, frankly yet tastefully. As well as giving you all you need to know about how to make the encounters memorable, safe, and rewarding, this book provides a modern, 360-degree view tips and techniques in an easy to remember step by step illustrations. There are a few basics you should take into account before stripping your clothes off.
Do you want to learn how to masturbate to a state of blissful pleasure that is far more lasting and intense than anything you have experienced masturbating the ordinary way? This is the only masturbation program that will help you sharpen and polish your sexual skills and stamina. Not only will you become more confident in the bedroom but it will also allow you to give your partner clearer directions on what you need to get truly satisfied.

You can improve your sexual enduring power by practice. This masturbation system can be an important tool in “training” you on how to last longer in bed. You will naturally increase your sexual stamina by learning to increase time before ejaculation in these masturbatory sessions. The more you masturbate, the more control you get over the timing of your ejaculation.

Guys are often guilty of skipping foreplay altogether, instead going straight to sex without warming her up first. With tips and tricks specifically designed to stimulate her sexually. Learn to put a woman in the mood so she can ache to be penetrated. Foreplay is one thing a woman can’t get enough of. Women are emotional creatures, and that’s why they like, enjoy, and need foreplay. So give her what she wants, and she sure will shock you with how well she responds and actively participate during sex.
Women's brains need more novelty and more variety in bed than men's do. Novelty and variety are necessary in order for her to stay sexually invested, aroused and interested in her partner. So, if sex gets boring for her she will have no moral reason to engage in it. In order for you to keep her sexually interested, you have got to understand that her desire stems from novelty, variety, and exploring all the kinky things that interest her... not just the kinky stuff you're interested in.

Read that again….

Giving can be just as gratifying for someone as receiving is for the other. When you indulge in the fantasies and games outlined here, you'll not only be giving your sex life the time it deserves, but you'll be injecting creativity and passion into it as well.

Explore new territories and experiment with pieces, parts, or entire games and fantasies. You also get to bring out your competitive side for good, have some lighthearted fun with her, and also have some really effing great sex at the same time.
